**Company:** Think-A-Move, Ltd.  
**Location:** Beachwood, OH  
**Industry:** R&D

**Job Type:** Software Programming Interns  
**Posted Date:** Feb 12, 2010

### **Software Programming Internship**

Think-A-Move LTD is a rapidly growing company, which develops leading edge device control and communication products, using advanced signal processing and speech recognition algorithms for processing acoustic signals such as speech and ambient noise. Think-A-Move is looking for two interns in software programming for the following projects:

- Project 1: Optimize and enhance proprietary speech recognition SDK (Linux/Windows XP)
- Project 2: Implement proprietary signal processing algorithms into DSP code using Matlab, C or assembly code.

### **Requirements:**

- **Education:** Seniors (preferred Bachelor Degree) in Electrical/Computer Engineering, or Computer Science
- **Software Skills:** C/C++ (Project 1); Matlab and C (Project 2)
- **Desirable Skills:** Multi-threaded cross-platform programming and/or C# (Project 1); ARM and/or DSP Assembly Language (Project 2)
- **Software Platforms:** Windows XP, Linux
